

## TRANSFORMATIONS THAT STAND THE TEST OF TIME

Fate initially brought Cathy to TLC back in the mid-90s. “We had severe storm damage shortly after moving in,” the Eagan homeowner recounted. “Standing around, taking it all in, our neighbor recommended his cousin’s husband, who - at the time - owned TLC.”

Since then, TLC has done nearly a dozen projects around the home, making it warm and comfortable for the family inside it. ►

**NO PROJECT TOO BIG OR SMALL!**

## A GOOD GROUP OF PEOPLE

When a remodeling team is in your home for hours at a time, for days on end, you want them to be people you trust and - even better - get along with.

“That’s been the case with every single project I’ve done with TLC,” said Cathy. “We worked with them for so long; I know their team by first name, when they got married, their kids’ names. And vice versa.

“You can tell they’ve worked together for a long time because it’s such a seamless process. They’re just quality people.”

## A DECADES-LONG RELATIONSHIP

A major benefit of working with the same home remodeling company is a rich, nuanced understanding of your home and the work that’s been done on it.

“They know me, my family, and my house,” said Cathy. “Best of all, they work the way I like—efficiently and with great communication.

“Their honesty and foresight make the whole process run smoothly, whether it’s a massive renovation or a small project.”

## A SEAMLESS PROCESS, NO MATTER THE JOB

Whether a roof repair, a deck addition, or window replacements, TLC has been there for Cathy through it all.

But it’s the three major bathroom renovations that really stand out. With detailed finishes, bright light, and a modern flair, these updates gave the house the push into the 21st century it needed.

“I couldn’t pick a favorite [bathroom]; I love them all so much,” smiled Cathy.

## GIVING BACK TO THE LOCAL COMMUNITY

Supporting folks in the Metro area is a passion of ours. To thank our featured homeowner, Cathy, TLC is donating to her chosen organization: The Open Door Pantry in Eagan.

“The Open Door Pantry focuses on assisting people experiencing food insecurity by supplying healthy, wholesome food options,” noted Cathy. “It’s a well-run community program that greatly benefits our community.”

Currently, Open Door Pantry serves 14,000+ Dakota County residents every month. To learn more about their year-round work, visit [www.theopendoorpantry.org/](http://www.theopendoorpantry.org/)

## Nick Through The Years

Whiskey, blue jeans, cheddar cheese—some things just get better with age.

Watching TLC grow through the years, and growing alongside it, has been a huge source of pride in my life. The world may have changed a lot since this 2003 photo, but my love of home remodeling has only gotten stronger.

Our team loves getting to know our clients and making their remodeling dreams come true, no matter the size or complexity of the project. If you’re wanting work done on your house, give us a call. We cannot wait to meet you.

## LOVE FROM THE HOMEOWNERS

**“I like them all as people; they know me, my family, and my house. My daughter was two the first time we worked with them, now she owns her own home, and they’re helping her! Frankly, I don’t know what I’d do without them.”**
